--	---

<sup>1</sup> the only records that are allowed to be scanned are those which are in adequate condition, without legal constraints. Our employees will judge this.

<sup>2</sup> Provided copyright allows for this.

<sup>3</sup> We don't charge per physical unit, but per unit of time (research costs). Even though this depends on the record, you should count on approximately 20-30 scans per 15 minutes. In the case of bespoke assignments you will receive an indication of the costs as well as payment instructions up front. If an assignment is too complicated and will take us more than one hour to accomplish we may choose to outsource it. However, this choice will always be made after reassessing with the customer.

<sup>4</sup> If an assignment is too complicated and will take us more than one hour to accomplish, we may choose to outsource it. However, this choice will always be made after reassessing with the customer.
